

MAGPOWR Smart Brake

Minimum maintenance with maximum results is the hallmark of the Smart Brake, thanks to its predictive and toolless maintenance features. The brake includes a pad wear indicator and heat detection, resulting in reduced downtime with consistent, high-quality rolls. The Smart Brake's rugged construction and single-rotor, dual-flute, and high-output design is appropriate for almost any web application.

Key Features:

- Smart technology provides predictive and toolless maintenance
- Pad wear indicator and easy access to brake pads simplify maintenance
- Automatic heat detection with integrated cooling
- Single rotor, dual flute, high output design appropriate for a wide range of web applications
- UL and CE Approved
